## PICKS OF THE WEEK

### Read of the Week

Our best understanding of physics is predicated on something known as quantum field theory. Unfortunately, in its raw form, it doesn't make sense—its outputs are physically impossible infinite percentages when they should be something simpler, like the number 1. [The Infinity Puzzle](#) is the story of a

wild idea on the road to acceptance. Only author Frank Close can tell it.

### Movie of the Week

In Spanish comedy-drama *Talk to Her*, two men share an odd friendship while they care for their girlfriends who are both in deep comas.

### Album of the Week

*Autonomy* is the first EP from German electronic dance music producer and DJ [Zedd](#). He primarily produces in the electro house genre, but has branched out, drawing influences from progressive house, complexro and dubstep.

### Organization of the Week

[MDA](#) is the nonprofit health agency dedicated to curing muscular dystrophy, ALS and related diseases by funding worldwide research. The Association also provides comprehensive health care and support services, advocacy and education.
